INTERSHIP

Internship in Data Analytics & Artificial Intelligence (Using Django & AI) : 2025

Gained hands-on experience in data analysis, machine learning, and AI-based application development using Python and Django. Worked on data cleaning, preprocessing, visualization, and training predictive models on real-world datasets. Developed and integrated AI models into Django web applications to deliver intelligent and scalable solutions. Built foundational knowledge in dataset preparation, model deployment, and backend integration.

PROJECT

IntelliFarm – AI-Powered Farming Assistant : 2024

Developed an AI-driven agricultural support system to enhance farmers' productivity and decision-making. Implemented features including an online marketplace, government schemes dashboard, rainfall prediction, and chatbot assistance. Designed the system to support social and professional needs of farmers through intelligent automation.

Tech Stack: Python, Machine Learning, Flutter, Firebase, OpenWeather API, Chatbot, Pandas, NumPy

Time Banking Community Service Network : 2025

Built a full-stack web platform enabling users to exchange services using time credits instead of money. Implemented secure authentication, transaction tracking, and responsive user interfaces with RESTful APIs. Designed scalable backend services and structured database management for community interactions.

Tech Stack: Python, Django, HTML, CSS, JavaScript, MySQL, REST APIs

VisionPotholeAI – Deep Learning-Based Pothole Detection System : 2025

Developed a computer vision system using YOLOv8 for automated pothole detection from images, videos, and webcam streams. Performed dataset collection, annotation, preprocessing, and model fine-tuning for improved accuracy. Integrated the trained model into a Django web application for real-time visualization and analytics.

Tech Stack: Python, YOLOv8, OpenCV, Django, Kaggle, HTML, CSS, JavaScript

SKILLS

Programming Languages - C, C++, Python, Java

AI / ML & Data Science - Supervised & Unsupervised Learning, NLP, Computer Vision

Databases - MySQL, MongoDB

Libraries & Frameworks - NumPy, Pandas, Django

Web Technologies - HTML, CSS, JavaScript

APIs & Backend - REST APIs, GraphQL, gRPC

Core Concepts – DSA, OOPS, DBMS

Data Visualization - Matplotlib, Seaborn

Tools & Platforms - VS Code, GitHub, Google Colab, Excel, PowerPoint, Canva
